

Got Broadband?

(High Speed Internet)

Broadband can enhance your quality of life with:

- Tele-medicine
- E-Commerce
- On Line Ag auctions
- Distance learning
- Small business assistance
- Tele-work
- E-Government
- Home jobs for the disabled
- On-line entertainment
- Senior care

To help Nevada County residents get these broadband services sooner, we need to learn who has it, who wants it, what you might use it for and what you'd be willing to pay for it. With your feedback and guidance, the Nevada County Economic Resource Council and the Sierra Economic Development Corporation (SEDCorp) can facilitate the early expansion of High-speed Internet Service Networks in every corner of your community. Please help by attending a community workshop at 7 PM on Thursday, June 19th at the North San Juan Community Hall on Reservoir Street, one block off of Highway 49 in the center of North San Juan.

**Be there to tell us what you want
and what you need !**
